Benefit Plans Plus Launches New Web Site with Fiduciary Toolkit

Benefit Plans Plus, a retirement plan administration firm (and subsidiary of Brown Smith Wallace), has launched a redesigned Web site improving access to its web-based services, and including a new Fiduciary Toolkit. The firm has included many new features and layouts, an improved sitemap, and sample 401K plan designs for small and large companies. Two major additions which many clients will find useful is The 401(k) Plan Sponsor's Fiduciary Toolkit – 2nd Edition and more innovative 401K products.

By using the 401(k) Plan Sponsor's Fiduciary Toolkit, you can manage your 401(k) plan, learn how to monitor your plan costs, know what questions you should ask of your consultant/ broker, and learn more about ERISA 404(c) basics. The fiduciary toolkit comes with articles, checklists, tools, and resources from some of the nation's top retirement plan experts. The 401K toolkit is intended to help individuals, retirement professional, and companies manage fiduciary duties and improve qualified plan operations.

The Benefit Plans Plus Website has also rejuvenated the individual 401K product, and plan comparison calculator. Compared to other programs this 401K product is unique because you apply completely online. In addition, a unique 401K calculator that uses federal & state tax based tables to recreate your paycheck is also available on the site. This calculator helps analyze the tax impact of participating in a retirement plan

A few other benefits of the new Web site is the updated Frequently Asked Question section, a revised newsletter, a section of past articles archived, and more 401K resources for advisors, employees, and employers.
